

## EXPLANATION OF SEMINAR/PRESENTATION FEES

**This letter is not intended to be a bill. However, because churches often ask us about the costs for a seminar or presentation, we are providing you with this information.** We sincerely hope that churches do not make a decision to have (or not have) a seminar/presentation based on these costs. We are thankful for the donations which have made it possible to provide these seminars without depending on reimbursement. Of course contributions are appreciated and help support the work of ACCFS that includes doing seminars/presentations and providing counseling and consultations. Any checks for donations should be made payable to ACCFS. All presenters' expenses have been paid by ACCFS, including travel.

### The fees for seminars/presentations consist of two parts:

- (1) Seminar/presentation fees include staff preparation and delivery time. This figure is based on an average of costs for previously given seminars.
- (2) Overhead fees include the costs of travel, office services, and materials.

**Overhead Fees:**

- Overhead is a one-time cost for the day or weekend seminars/presentations are delivered regardless of the number of them. These costs may be estimated prior to the event but will be finalized after delivery.

**Sliding Fee Scale Based on Church Size:** We recognize that our churches vary in size and financial ability. Therefore, we encourage each church to respond to this as you feel led. For smaller churches that have a desire to contribute toward a seminar, our suggestion is to use a sliding scale such as:

- 200+ members: 100% of the total cost
- 150 – 200 members 75% of the total cost
- 100 – 150 members 50% of total cost
- 50 – 100 members 25% of total cost
- Less than 50 members: As you feel moved and are able.
